

INVITATION

Opening Wind Assisted Ship Propulsion Research Program

Tuesday 31 October 2023

3mE | Lagerhuysch and Lecture Hall C

PROGRAM

14:30 – 15:00 Welcome with coffee and tea *Lagerhuysch*

15:00 – 15:10 Opening WASP research program *Lecture Hall C*

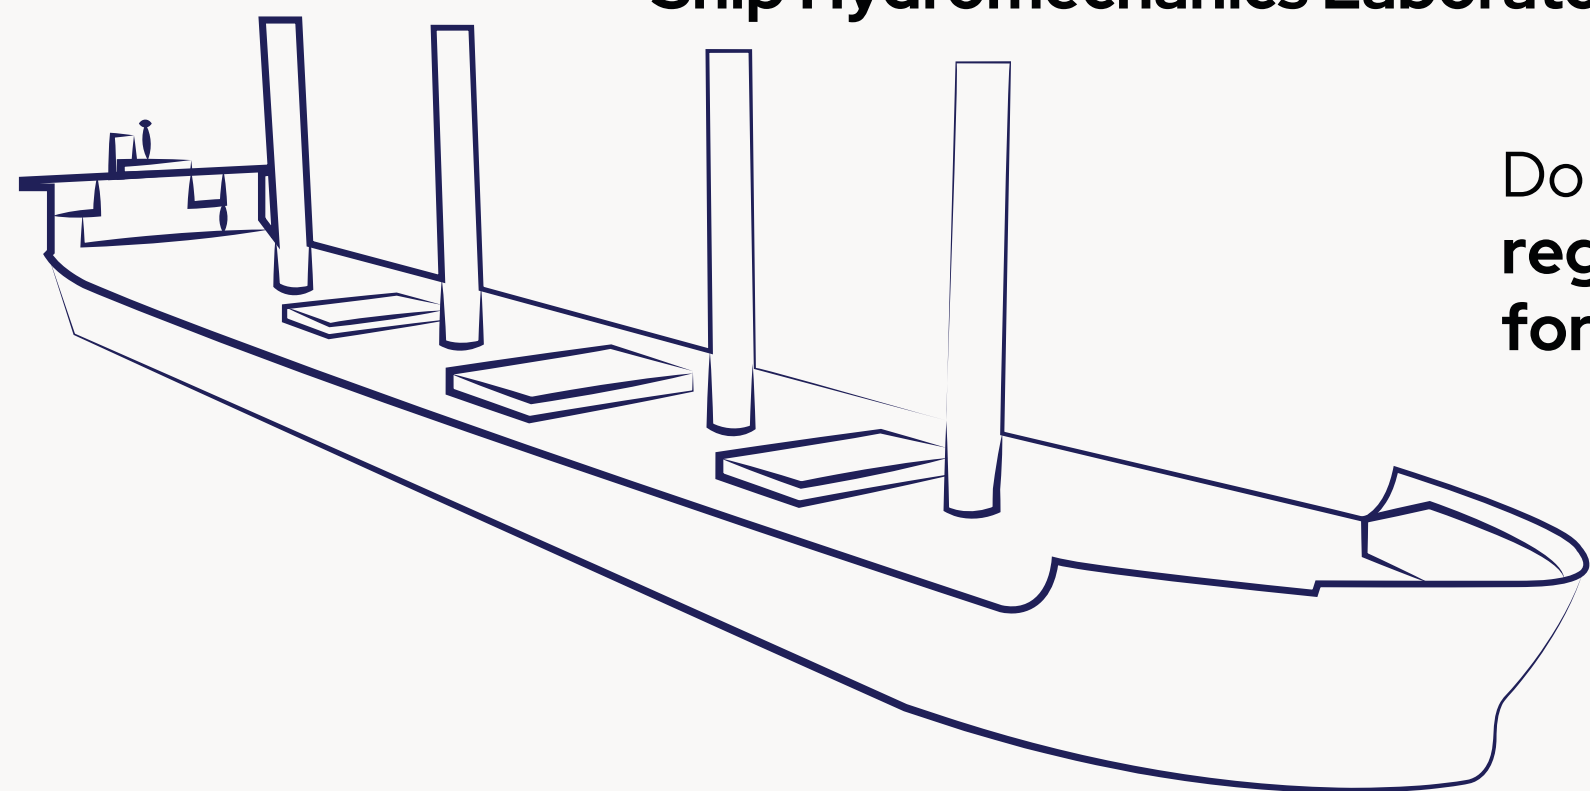

15:10 – 15:20 Signing ceremony Axe Bow Fund *Lecture Hall C*

15:20 – 16:30 Presentations Wind Assisted Ship Propulsion *Lecture Hall C*

- Gavin Allwright International Windship Association
- Giovanni Bordogna Blue Wasp Marine
- Ville Paakkari Norsepower
- Rogier Eggers Marin

16:30 – 18:00 Drinks and optional guided tour of the *Lagerhuysch*
Ship Hydromechanics Laboratory

INVITATION

Opening Wind Assisted Ship Propulsion Research Program

Tuesday 31 October 2023

3mE | Lagerhuysch and Lecture Hall C

We are happy to announce that the faculties of Mechanical, Maritime & Materials Engineering (3mE) and Aerospace Engineering (AE) of the TU Delft will start a unique interdisciplinary research program on Wind Assisted Ship Propulsion (WASP). This research program is initiated by the Axe Bow Fund, established by the TU Delft and Damen in 2007 to promote maritime research and education at the TU Delft.

The research program is a platform to stimulate and facilitate interfaculty projects by combining the expertise of six research groups covering nearly all disciplines of auxiliary wind propulsion for commercial shipping. The program aims to develop knowledge of high-performing wind assisted ships, which contribute to a more sustainable shipping industry.

To celebrate the start of the WASP Research Program, we would like to invite you to the official opening.

Do you want to join this event? **Please register before 24 October by using this form: aanmelder.nl/148394/subscribe**

We hope to welcome you on 31 October.

On behalf of the WASP program team.
Kind regards,
Albert Rijkens
Program manager WASP
